id	title	points **DESC**	user1
2	New product	500	
1	Big news	300	read this
3	Show HN	200	looks fun

Query engine produces a combined and sorted table

Query engine

id	title	points
1	Big news	300
2	New product	500
3	Show HN	200

id	user1
1	read this
3	looks fun

Both table adapters expose a uniform table adapter interface

DOM Scraping table adapter

Local Storage table adapter

scraped data *DOM edits*

read/write local table

```
<html>
</html>
```
Web page DOM

Browser local storage
